Objective

In this challenge, we practice calculating probability. Check out the [Tutorial](#) tab for a breakdown of probability fundamentals!

Task

In a single toss of **2** fair (evenly-weighted) six-sided dice, find the probability that their sum will be at most **9**.

☐ $\frac{2}{3}$

☒ $\frac{5}{6}$ ✓

☐ $\frac{1}{4}$

☐ $\frac{1}{6}$

You have **2** attempts left.
